

# Product description

## OMV brake fluid DOT 4

Product number: 999371  
OMV Deutschland: 9701

OMV brake fluid DOT 4 is a high quality brake fluid that has been developed for all available brake systems and particularly for ABS systems.

### Properties

The outstanding feature of OMV brake fluid DOT 4 is its high dry and wet boiling point. This is extremely important for safety in all driving situations. The simultaneous clearly, lower viscosity ensures that brake systems respond more quickly at lower temperatures. OMV brake fluid is also resistant to water absorption, thus reducing the drop in the steam void point.

### Application

OMV brake fluid DOT 4 is suitable for modern brake systems and particularly for ABS, it can also be mixed with other brake fluids. OMV brake fluid DOT 4 only achieves its particular advantages unmixed. The manufacturers' recommended brake fluid change intervals should be adhered to.

### Specifications

Exceeds: SAE J 1703, and FMVSS 116 DOT 3 and DOT 4, ISO 4925

### Technical data (typical values)

Property	Unit	OMV brake fluid DOT 4
Density/15°C	Kg/m <sup>3</sup>	1060
Dry boiling point	°C	268
Wet boiling point (in accordance with FMV SS 116 with 3,5 % water)	°C	160
Viscosity/100°C	mm <sup>2</sup> /s	2.2
Viscosity/-40°C	mm <sup>2</sup> /s	1150

Safety data sheets are available on request.
